Objective

Focused B.E graduate in Electronics and communications with strong communication skills and the ability to adapt to change. Seeking to apply knowledge and skills to a dynamic role in the Networking and cloud computing. I am looking for a job to start my career journey and enhance my skill, knowledge along with contribution to growth of the organization and I hope this is the great opportunity for me to learn from the expert. I am active learner so I improve my skill with all speed as well it is help to train me rapidly, I am good at time management which is help to organization to complete the task within the deadline.

Technical Skills

Programming Languages	:	Python, Shell Scripting
Network Fundamental (N+)	:	DNS, DHCP, Network security, Routing and Switching, Firewall.
Libraries/Frameworks	:	Kubernetes
Tools / Platforms	:	AWS, VM ware, CISCO packet tracer, Arduino IDE, Linux
Operating System	:	Windows, Linux (RHEL).

Education

K RAMAKRISHNAN COLLEGE OF TECHNOLOGY	Trichy
Electronics and Communication Engineering B. E	2020 - 2024
CGPA: 7.1	

Projects / Open-Source

Agriculture controlling motor using Arduino

The proposed system involves the integration of Arduino microcontrollers with various types of motors, such as water pumps, irrigation systems, and harvesting equipment. Arduino's flexibility and ease of programming make it a versatile tool for creating customized solutions to meet the specific needs of different agricultural applications.
